SCALES FOR POST OFFICE

release date 27-02-2013

WPT/P 2

Postal scales are designed for weighing parcels with possibility of multiple tarring in whole measuring range. Stabilization time is approximately 2 seconds.

The indicator, featuring a backlit LCD display is either attached to the weighing platform or installed on a pillar. The scale comprises a second display for mass indication for the customer. Non-verified postal scales have additional software functions of: peak hold and measurement in Newtons.

The scales are powered by mains or batteries. Optionally, the scales can be equipped with RS 232 output.
