

## ORIGAMI DUNE & COLORADO NIGHTS

Origami Dune is a modern collection of monochrome wall tiles, with three bright hues – white, pastel grey, and cream – contrasting against deep-black tiles. The collection features three structural patterns: „Origami”, with reliefs inspired by the Japanese art of folded-paper decorations, „Brick”, imitating the look and feel of brick walls (now a very popular motif in interior design), and „Pulse”, with structures made of miniature hemispheres, forming a pulsating, convex pattern. The glossy enamel covering the rounded elements reminds one of drops of water in a regular arrangement. This collection makes it possible to create many unique interiors – ranging from bright monochrome compositions with certain areas underscored by raised patterns, to contrast-based designs embellished with touches of relief.

The other collection presented here, Colorado Nights, is a monochrome line in shades of grey with a bluish-purple hue. The minimalist tiles are further complemented by vertical-band inserto tiles and flower-motif decorative elements, also sustaining calm, ashy-grey tones. To liven up certain interiors, we propose universal glass trim tiles in colors harmonized with the greyish-white scheme of the collection, in sizes to suit the format of the rectified tiles.
