

Manoeuvrable, compact, simple
HS770-2

HS770-2

Compact manual sweeper for medium to large areas up to approx. 1500 m² in private households and businesses. Without noise and emissions, it can be operated with ease. The handle can be turned for ergonomic adjustment. Adjustable side brush and roller brush. Built for tough use.

Technical data

Dirt container volume	50 l
Working width	77 cm
Brush height	adjustable
Productivity rate theoretical	3000 m ² /h
Weight	14.6 kg
Dimensions L/B/H	100 / 78.5 / 105 cm

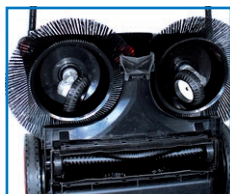

Turbo sweeping system
Counter-rotating plate brushes push the swept material directly into the collecting container.

With an additional fine dirt sweeper roller, the machines sweep twice in one pass and pick up even the finest dirt particles cleanly.

Space-saving storage

Patented system, sweeps forwards and backwards optimally

Low dust formation thanks to intelligent air routing. Inside the machine, the dust-laden air is cleaned and returned to the sweeping circuit.

Thanks to the lateral guide roller, sweeping close to the edge is effortlessly possible without damaging the machine or surfaces.
