This exploded perspective view illustrates the assembly of the cabinet's main body. Component 4 is the central front panel, while component 5 is the top panel and component 7 is the back panel. Component 8 is the bottom panel, and component 9 is a vertical support or divider. Components 13 and 14 are side panels. Screws (l1) are used to secure the panels together. Cam bolts (p38) are shown being inserted into the side panels (13 and 14) to lock the cabinet doors. A hammer is shown on the left, indicating the tool used for assembly.
