Technical Data Sheet

EG1598-92513

Laqvin Top 30 Base A

Product description

Water borne Topcoat for exterior finishing, designed for windows and other wooden surfaces for exterior use. Provides a flexible finishing with good outdoor durability. Characteristic for this top coat is the stackability and application properties.

Product data

Gloss: 28-35 Gardner 60°

Solid content: 51 ±1 [weight %] theoretical

Specific gravity: 1250 ±30 [kg/m³]

Viscosity: 98-104 [KU] Stormer test performed at 23 °C

pH: 7,7-8,8

Frost sensitive: Yes

Storing incl transportation: 12 months At 5-30 °C

Storing at higher temperature reduces shelf life, do not expose to direct sunlight

Process Temperature: 18-30 °C To achive the best result and consistency follow the application and surface temperatures

given in Schedule of Apllication for each specific technology and production line.

Mixing/Application

6/ 1-1-						
Recommended application		Amount		Application	Application	
method	Hardener	hardener	Dilutant	viscosity	amount	Notes
		[Parts by vol]			[g/m²]	
Air mix spraying			Water	Del. Viscosity	150-220	Paintpressure > 80 bar
Air less spraying			Water	Del. Viscosity	150-200	Paintpressure > 140 bar
High speed bell/disc			Water	Del. Viscosity	150-200	

Conventional spraying Not recommended

Stir well before use!

Cleaning: Water

XX699

Drying

Method Drying condition Drying time Notes

Air Drying Not recommended

Forced drying $30 - 40 \, ^{\circ}\text{C}$ $60\text{-}90 \, \text{minutes}$ To handling Forced drying $40 - 50 \, ^{\circ}\text{C}$ $45\text{-}60 \, \text{minutes}$ To handling

IRM Not recommended

All kind of drying requires good ventilation and circulation

Do not stack before surface temperature below 30 °C

Exterior products: should not be exposed to water, water condensation or temperatures below 0 °C with in 48 h after application

Full cure N/A Semi cure N/A

Note - Required Peak/Energy is depending on several factors, such as substrate, amount of application, number of layers and type of UV oven / reflectors. Recommended application amounts and Peak/Energy values will be stated in the finishing instruction/process control submitted by technician.

General information

According to Swedish legislation we provide information regarding dangerous materials. The Safety Data Sheet contains facts about the components, primarily solvents and acids which present the dangerous characteristics. The Safety Data Sheet will be sent on request. All values and recommendations above are to be considered as guidance only. Many factors beyond our control may have an influence on the coating result. Should a problem arise, please contact us and we will advise accordingly. We reserve the right to alter the above specifications.
