POWERMIX^{PLUS}

PRODUCT DESCRIPTION

Powermix Plus is continues mixing and spraying pump machine with very high capacity which is suitable for premixed gypsum, lime and cement based plasters, glues, colored plasters, stuccoes and finishing coats.

PRODUCT SPECIFICATIONS

- High mixing quality
- Easy to disassemble and transport
- High quality of electrical panel
- 2 years warranty

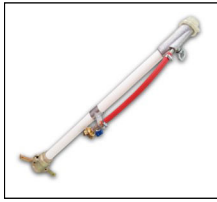

TECHNICAL DATA

Power Supply: Three Phase 380V-50Hz
Mixer Motor: 5,5 kW, 396rpm
Drive Motor: 0.55kW, 28rpm
Water Pump: 0.37 kW-0.50hp
Compressor Capacity: 250 lt/min- 5.5 bar
Output Rate: 5-40 lt/min *
Max. Hor. Conveying Distance: 40 meter *
Hopper Volume: 130 lt
Maximum Weight: 260 kg

* Those variables are not standard, depending on the characteristics of materials, pumping height and the type of pump motor, rotator and stator can be changed.

ALPHA

POWERMIX

PRODUCT DESCRIPTION

Powermix Alpha is continues mixing and spraying pump machine with very high capacity which is suitable for premixed gypsum, lime and cement based plasters, glues, colored plasters, stuccoes and finishing coats. It introduces the high technology to construction sector with ergonomic design and high performance.

PRODUCT SPECIFICATIONS

MONO POWERMIX

PRODUCT DESCRIPTION

Powermix Mono is single phase, continues mixing and spraying pump machine with very high capacity which is suitable for premixed gypsum, lime and cement based plasters, glues, colored plasters, stuccoes and finishing coats. Due to it can be operated with 220V residential electricity it is perfect option for construction works in residential areas.

PRODUCT SPECIFICATIONS

- High mixing quality
- Easy to disassemble and transport
- Operated with 220V residential electricity
- 2 years warranty
