HD IP CAMERA

Quick Operation Guide s2L55+IMX124

Thank you for using our product, please read this manual carefully before use. Please refer to the complete User manual for more information from the CD.

- Once receive the product, the user should open the outer packing box to check the appearance for obvious damage.
- 2. Please referring to the following list to check whether the accessories are complete.

| Accessories list

Accessory name	Number
IP camera	1
CD (users guide)	1
Quick Operation Guide	1

Mind you respected user, important operations and maintenance (repair) guide are described in the attached product instruction.

Mind you respected user, uninsulated "dangerous voltage" exists, please be aware of electric shock.

2 Product Notes

Thank you for buying our IP camera, please read the following instructions carefully to learn the related operation.

- 1. Before using the camera , please read this guide book carefully and make sure the power supply is normal.
- Users should follow the manufacturer's instructions to install device professionally and must not dismantle the equipment without permission.
- 3. To prevent the sensor pull light phenomenon, prohibit putting the lens under bright light for a long time.
- 4. If the lens is dirty or foggy, please use a dry soft cloth to clean it.
- 5. The equipment must not be installed under the air door of air conditioner, otherwise the lens will become blurry and condenses into moisture.
- When install, repair or clean the equipment, please make sure the power has been turned off.
- 7. Stay away from high temperature and heat source environment, pay attention to ventilation.
- 8. To avoid damage and electrical shock, nonprofessionals are forbidden to dismantle the equipment.
- 9. Prohibit putting this equipment to work in strong magnetic field and laser beam environment.
- 10. If there is lightning during installation, please take grounding lightning protection measures.
- 11. Damages to the machine and all other economic losses caused by human are at your own risk.

Reminders:

- Power supply must pass safety certification ,lts output voltage, current, voltage polarity and operating temper ature must match requirement of this equipment.
- Please install lightning protection devices or cut off the power in thunder and lightning conditions.
- To capture high-quality video and pictures, please make sure the network connection is stable and smooth.

3 Main Features

- 1. Ultra-low illumination and high-performance real-time screen, support ABLC image effect.
- 2. Support WEB configuration, and IE network Monitoring
- 3. Support dual-stream.
- 4. Support OSD, color, brightness, saturation and digital zoom settings settings.
- 5. Support real-time video transmission, video motion detection and privacy masking.
- 6. Support remote monitoring, ONVIF2.4 protocol and IR-CUT switch.
- 7. Support P2P network platform.

4 Parameter Description

Solution	S2L55+IMX124	
Description	A 3MP IP CAMERA	
Sensor type	1/2.8" 3.0 Megapixel CMOS Image sensor	
Minimum Illumination	0.01 lux	
S/N Ratio	>50db	
Shutter	1/25 - 1/10000s(adjustable)	
WDR	Support	
Digital noise	3D DNR	
Day/Night	ICR-infrared filter	
Video Compression	H.264/MJPEG	
Bit Rate	64-12000Kbps	
Audio encoding proto- col	G.711/G.726/MP2L2	
Audio compression bit rate	64Kbps(G.711)/16Kbps(G.726)	
Max image size	2048×1536	
Frame Rate	3Mp30fps,2Mp40fps	
Image setting	Brightness, contrast, saturation, sharpness can be adjusted	
Backlight Compensa- tion	Support	
Storage function	FTP、Local、NVR、SMTP	
Interface protocol	Onvif / Private	
Intelligent alarm	Motion detection、Privacy	
Protocol	TCP/IP、HTTP、FTP、DNS、DDNS、 RTSP、NTP、SMTP	
General function	P2P	
Communication inter- face	RJ45 (10M/100M) Adaptive Ethernet port	
Audio input	1CH,MIC IN/Line IN	
Temperature	-20°C ~ 75°C	
Humidity	0%-90%RH Without Condensation	
Power	DC12V±5% / PoE(802.3af)	

Illustration

The following structure diagram is used as an example for the different appearances of different models.

1. Input interface

Sequence NO.	Interface	Functional description	
1	Power connector	12V DC input power	
2	Network interface	Network data transmission	
3	Power connector (for	12V DC input power	
	stand-by power)		
4	Network interface	Network data transmission,	
4	Network Interface	12V DC input power	

2. Device connection

1.Install Client Software

Find out the document"IP Search.exe", make a copy in the computer and double click to open it. As shown in the picture:

2. Change the Camera's IP Settings

Make sure IP camera is connected, and click Search to search the IP camera, find it, click it, and then change the IP settings. Finally, click Modify IP to confirm the change.

8 Computer Client Connection

 Install Computer Client Software CMS Find out the document "HeroSpeedCMS.exe", make a copy in your computer and double click to install it.

2.Search Add Device

Click "Search Device" to search for device in LAN, or add device manually.

★ Search to add device: Configuration Management→Device Management→ Add Device→ Online Searching→ Query → Select Device

★ Add device manually: Configuration→Device Management →Add Manually

9 Mobile Client Connection

1. Install Mobile Monitoring Software Enter URL on your phone: <u>www.freeip.com</u>, download and install mobile monitoring software "FREEIP".

♀ JserName ☆ PassWord △ Auto ○ Save Login Forgot | Regist

2. Add Device

Click "Add Device "

Can directly scan the QR code to get the device serial number, or manual input device serial number.

7 IE Connection

1.Browser settings

Open your IE browser , Click Tool \rightarrow Internet Option \rightarrow Security \rightarrow Customized Level \rightarrow Active X

Control and Plug-in, select all "Enable".

2. Enter URL : http://192.168.1.168

3. Install control

An OCX control is needed in your computer for the first IP camera installation, click the pop up tip "**OK**" and install OCX control. As shown in the picture:
