

## SUBLIMATION CASES

To meet different market demands, BestSub did our utmost to enrich the cover and case Brand list. Covers or cases for the complete brands collection are as follows(name in alphabetic sequence):

- Apple
- Amazon
- Blackberry
- Google
- HTC
- LG
- Microsoft Surface RT
- Nokia
- Nook
- Samsung
- Sony
- Xiaomi
- Huawei

## A LOOK-THROUGH OF BESTSUB'S COVERS AND CASES

In this column, you will be able to dig out BestSub's full item list of covers, cases, models, package covers for the most popular smart phones, tablets, e-readers, dummy models.

With the development of BestSub's decade long expertise in personalized covers and cases, we have a diversified cover and case portfolio, including:

### 2D SUBLIMATION COVERS

Basically made from plastic, rubber and TPU; For each 2D cover, we have corresponding sublimatable insert sheets, metal sheets, aluminum sheets, sparkle alu sheets, Ji-case Alu Grade A. Different types of phone case will have different inserts.

### 3D SUBLIMATION COVERS

3D sublimation covers, generally made from polymer, further divided by the finish technique of glossy, frosted and paint. What's makes the 3D covers different from conventional 2D covers is the printing method and process. It requires a matchable 3D printing tool which is supposed to be used in a 3D vacuum machine. As a result, a 3D cover has a full size printing in the surface and the edge, corner and places which can not be printed with the normal 2D cover making process;

- Cases, made of PU, microfiber or jeans with a layer of sublimatable polyester surface;
- Apart from the upper listed items, we will also provide phone cover packing box, stickers, dummy models.

Note: Different printing parameters shall be applied to different types of sheets. Consult BestSub for detail.

Dedicated to better sublimated phone covers, BestSub has developed a group of aluminum and metal inserts for different market demands. Each type of these inserts demonstrate unique printing performance and features, see the below table.

Name	Features
Alu Sheet	Basic type, nearly used for every model of 2D phone covers at BestSub.
J-iCase Alu Sheet, Grade A	The grade A sheet is imported from the United States.
Metal Sheet	With the heaviest weight comes with the most wonderful hand feel!

## PHOTO BALLOON

### Do-it-Yourself Printable Balloons

DIY balloons are perfect for parties, wedding banquets, special events, promotions, or even greeting & invitation cards, etc. Are DIY balloons difficult to make? Don't be shocked by the strange words! In fact, the procedure is quite simple. Now, you can print whatever you want on our DIY balloons with a normal inkjet printer. Made of aluminum foil composite film, the DIY balloons is remarkably durable and the printing remains time tested.

Being personalized, it is easy to make it promotion gift items. No heat press required! Print these balloons in any inkjet printer using standard inks. These balloons come in a frame that allows it to pass through your printer, and then the print will come onto both sides of the balloon.

Item No.	Item Name	Item No.	Item Name

## PHOTO ALBUM

Choose the corresponding software according to the model you buy

Adjusting and printing photos on the test paper first. Printing them on the photo paper if there is no problem.

Pulling off the 3 piece printed photos along the cut line.

Folding the photos along the dotted and blade line. (Please check the below step 1.)

Sticking the 3 piece folded photos together. (Please check the below step 2)

After stick them together they become a book as shown in the picture.

Insert the finished photo to the album cover.

Album completed.

## How to make it

- 1 A Windows run PC and an inkjet printer connected to internet are required;
- 2 Edit your favorite photo with the software, print it and fold, then your album is finished.
- 3 You can carry it with the mobile phone or bags, it is free from stain.

## BESTSUB-BP SERIES VINYL CUTTERS

1. Use ARM 13 High-performance intelligent controller;
2. Exact positioning with Red Dot;
3. The registration mark detection guarantees accurate contour cutting;
4. Smooth operation of advanced high-speed cutting function;
5. Work independently without connecting to a computer, it can work with high-capacity SD output interfaces and USB / serial port, providing diverse choices;
6. With a strong cutting pressure, it can cut high-strength grade reflective film material.

### Match Software:

- Flexisign
- Coreldraw
- Casmate
- Illustrator
- Autocad
- Artcut
- Winpcsign
- Mastercut
- Cocut

[www.printyourdesign.com](http://www.printyourdesign.com)

Print Your Design (PYD) Center is a one-stop printing service department under BestSub. Dedicated to personal branding, PYD endeavours to make your unique design and thinking into wonderfully tangible personal gifts.

Our key products consists of 3C accessories products for famous brands such as Apple's iPhone, iPad, Samsung, personal decor, bags, apparel, outdoor sports items, home appliances, kids' toys and etc.

## OUR ADVANTAGES

1. Abundant choice of diversified personal gifts produced by our own factory;
2. Time base first-class quality with our decades long service expertise
3. Supported by a group of R&D team;
4. OEM and ODM service available;
5. Furthermore, PYD is empowered by the largest and most professional sublimation printing factory in southeast China.

We eager to build up business relations with partners worldwide.

## Follow the two steps to get your gifts:

1. Choose your favorite gifts;
2. Tell us your favorite design or picture to be printed on the item.

- At PYD, you will enjoy our considerate one-stop gift printing service.
- We consider every customer as our most honorable guest, regardless the quantity of the order.
- Guided by customers' timetable, PYD finishes your order in the shortest time period, guaranteeing your personal branding as soon as possible.

## For Heat Presses (at Celsius Degree)

Item Name	Temp. (°C)	Time(S)	Remark
Mug	Real→180	10	1.Printing on sublimation paper, mirror image; 2.Be careful of cracking; 3.Medium Pressure.
	180	100-120	
Plate	180	120	1.Printing on sublimation paper, mirror image; 2.Plate to lay flat; 3.Medium pressure.
Ceramic Tile	180-190	150-200 300-420	1.Printing on sublimation paper, mirror image; 2.Image and printing side matched tight without margin; 3.Printing side upward for better printing; 4.Medium pressure.
Metal Board (Aluminum and Metal)	180	120	1.Printing on sublimation paper, mirror image; 2.Image and printing side matched tight without margin; 3.Printing side upward for better printing; 4.Medium pressure.
White and Sparkling Aluminum Sheet	200	40	1.Printing on sublimation paper, mirror image; 2.Tear off the protective film on the board before printing; 3.Image and printing side matched tight without margin; 4.High Pressure.
Metal Sheet	180	70	1.Printing on sublimation paper, mirror image; 2.Tear off the protective film on the board before printing; 3.Image and printing side matched tight without margin; 4.High Pressure.
Imported Grade A and AA Aluminum Sheet	180	45	1.Printing on sublimation paper, mirror image; 2.Tear off the protective film on the board before printing; 3.Image and printing side matched tight without margin; 4.Medium Pressure.
T-Shirt (Non Cotton Material)	180-190	120	1.Printing on sublimation paper, mirror image; 2.Keep temperature sensitive parts away from heating board; 3.High Pressure; 4.Only for non cotton material like fabrics and polyester.
T-Shirt (Light Color Cotton Material)	180-185	25	1.Printing on AW light color transfer paper (red grid on the back), mirror image; 2.Keep temperature sensitive parts away from heating board; 3.High Pressure; 4.Peel off base paper immediately after printing; 5.Only for light color cotton T-shirts.
T-Shirt (Dark Color Cotton Material)	180-185	25	1.Printing on AW dark color transfer paper (red grid on the back), non mirror image; 2.Peel off base paper before printing, tag the image on T-shirt upwards and put thermal paper above; 3.Keep temperature sensitive parts away from heating board; 4.High Pressure; 5.Wait for 3 minutes and peel off thermal paper.
Mouse Pad	180	120	1.Printing on sublimation paper, mirror image; 2.Image and printing side matched tight without margin; 3.Medium Pressure.
Vinyl	150	6	1.Cut mirror image with vinyl cutter; 2.Tear off blank and useless vinyl; 3.Lay the cut vinyl on T-shirt to sublimate; 4.Cold peel.
CD Case (Aluminum with sparkle)	180	100-120	1.Printing on sublimation paper, mirror image; 2.Tear off the protective film on the case before printing; 3.Image and printing side matched tight without margin; 4.High Pressure.
Cigarette Case (Aluminum with sparkle)	180	100-120	1.Printing on sublimation paper, mirror image; 2.Tear off the protective film on the case before printing; 3.Image and printing side matched tight without margin; 4.High Pressure.
Lighter	180	180-240	1.Printing on sublimation paper, mirror image; 2.Both sides sublimatable; 3.Medium Pressure.

For Heat Presses (at Celsius Degree)

Item Name	Temp. (°C)	Time(S)	Remark
Puzzle	180	120	1. Printing on sublimation paper, mirror image; 2. Image and printing side matched tight without margin; 3. Medium Pressure.
Bottle	Real→170	10	1. Design shall not be 10 cm higher than the heater; 2. Printing on sublimation paper, mirror image; 3. Plastic cover shall be taken away before printing; 4. Medium Pressure.
	165-170	100	
6oz White Photo Mug	Real→180	10	1. Printing on sublimation paper, mirror image; 2. Put the mug in the middle of the heater; 3. Medium Pressure.
	180	120	4. Fix the paper and mug tightly.
Metal Name Card	180	40	1. Printing on sublimation paper, mirror image; 2. Printing side downward; 3. Both sides printable, printing side by side with the need for thermal paper.
Pillow	180	120	1. Printing on sublimation paper, mirror image; 2. Keep temperature sensitive parts away from heating board; 3. High Pressure.
Coated Glass Frame	180	120	1. Printing on sublimation paper, non mirror image; 2. Thermal tape not to tagged on the printing side; 3. Printing side upward with medium pressure.
Coated Crystal	180	120-180	1. Printing on sublimation paper, non mirror image; 2. Thermal tape not to tagged on the printing side; 3. Printing side upward to be preheated, medium pressure.
HB(Hardboard)	190	60-90	1. Printing on sublimation paper, mirror image; 2. Tear off protection film before printing; 3. Medium Pressure.
Plastic Mug	170	120	1. Printing on sublimation paper, mirror image; 2. Put the printing tool into the mug before printing to avoid deformation; 3. Medium Pressure.
Fabric Phone Cases	180	120	1. Printing on sublimation paper, mirror image; 2. High Pressure.
Dealers/Porker Chip	180	120	1. Printing on sublimation paper, mirror image; 2. Printing side by side, peel off the sublimation paper after printed one side, thermal paper needed to protect the other side during printing.
Fridge Magnet	160	100	Printing on sublimation paper, mirror image.
Animal Mug	180	10	1. Printing on sublimation paper, mirror image; 2. Keep the handle away from heating board to avoid crack;
	180	120	3. Medium Pressure.
Photo Slate	180	240-300	1. Printing on sublimation paper, mirror image; 2. Image and printing side matched tight without margin;
	180	420-600	3. Printing side downward; 4. Medium Pressure.

1. The above mentioned time & temperature parameters are just for equipment made by our factories. It may be different from other factories;
2. The temperature is "Fahrenheit";
3. Above listed parameters are only for suggestions from our own experience. You can also try and find out the best from your own operation.

**FAQs:**

- A. The color is a bit light: the temperature is too low, or the pressure is unbalanced, or the time is too short;
- B. The picture is vague: the pressing time is too long causing the ink to spread;
- C. The cover of the print is not brilliant: the pressure is too heavy;
- D. The print is partially vague: the heat of pressed area is unbalanced;
- E. The print has scar: the pressing time is too long;
- F. The print is in different level color: The pressure is unbalanced or the cover printing material is not balanced;
- G. Sticking papers: the temperature is too high or the cover of printing material is not so good.

**NOTE:**

- (1) Do not heat the machine without mug in the heaters or it could burn out ; Do not touch the heating elements directly without any protection, or you could be hurt ; After running more than 1.5 hours, it is better to turn off the machine for a 20-minute-break.
- (2) Trouble-shootings on a regular period basis.

## For Digital Presses (at Fahrenheit)

Item Name	Lowest Temp. (F)	Highest Temp. (F)	Time(S)	Remark
Mug	230	330	40

3D Phone Cover (transfer paper)	1 pc	155	3	<ol style="list-style-type: none"> <li>1. Mirror Print on the silver side of the film. Each film is enough for 2 covers horizontally;</li> <li>2. Make sure the machine under automatic vacuum condition. Printing time at 180 and temperature at 155°C and postponing time at 5 seconds.</li> <li>3. Preheat the tool into 155°C (when it rises to 155°C to hold for another 15min) put the cover into the machine to print.</li> </ol>

Note: Temperature displayed is for the temperature of the heating board and the true temperature on the silicon wrap is 70 to 80 Celsius degree lower.

#### Warning:

1. Make sure the voltage matches the machine;
2. Put on thermal resistant gloves to prevent injury;
3. Be very careful the formation of soft plastic items after printing ;
4. Printing is supposed to be carried out in sound air ventilation and low dust surroundings and keep far away from explosives;
5. To prolong the duration of the silicon wrap, we recommend to choose different point of the silicon wrap during printing;
6. Shorten the time between opening close cover of the machine;
7. Keep the machine in dry, flat and insulative condition;
8. Avoid direct contact between printing item and heating board during printing.

#### Remark :

1. The above parameters are just for BestSub's machine;
2. The above parameters are just for reference. You are encouraged to find the best parameter with the real situation.
3. After 2 hours working, heaters of digital presses will reach its highest temperature. You are suppose to prolong the printing time, specific time varies by different items.

# Frequently Asked Questions

## ■ What's sublimation product?

By applying sublimation coating to the exterior of objects, for example mugs, plates, metal boards and etc., photos are printed under the dye-sublimation process, producing extremely bright, vivid and colourful images. The digital images could be scenic pictures your own portrait, or any personal collective images. First, printing the pictures with sublimation ink onto inkjet paper as a carrier; then wrapping the paper onto the coated items and processing it under sublimation heat press machines at specific temperature and with designed time.

The product is washable and microwave safe. The whole process is of individually manual operation; therefore it is suitable for personalized gifts or promotional products. Naturally, its price is brought slightly higher accordingly than normal similar products. (E.g. sublimation mugs VS. normal white mugs)

## ■ Why choose sublimation products?

Sublimation products can be used as personal gifts or souvenir, or even marketing promotion products and incentive gifts.

As stated before, the image quality printed on sublimation product is extraordinarily clear, bright, and vivid which is hardly reachable by any other means. Plus, the product is individually hand-made, making it a personalized product. All of your own digital images, company logos, factory pictures or scenic can be printed onto the products, which gives your product a really different and special looking.

## ■ Why choose BestSub.com?

Our homepage: [www.bestsu.com](http://www.bestsu.com) is now considered a hub of sublimation information. BestSub has accumulated a decade experience in supplying sublimation products. We have a full range portfolio and are highly dedicated in serving you and meeting your requirements. A truly one-stop sublimation product -supply builds up convenience to clients. BestSub provides our products at a competitively attractive price with the support of our own factory and reasonable logistics. Our qualified staffs have proven ability with the background of either studying in western countries or working at multi-national companies, ensuring smooth communication with you.

Even if there could be something missed out in our product list, you don't need to worry about it. BestSub can provide you with powerful sourcing service and other trading services. After logging in our homepage, you are free to buy super quality products at a relatively low cost. Our products are uniformly made in China in a safe and user-friendly way.

## ■ How can I get more information about BestSub?

For more information about price, shipping costs, delivery time etc. please contact us by email, fax or telephone. Please make sure that your contact method is accurate and reachable. As we have a wide range of products so please do let us know which one(s) you are interested in so that we can give an efficient and prompt feedback. Also we highly appreciate if you could estimate the scale of the purchase potentials from us, because the prices and the delivery time would expect difference with order quantity varying.

## ■ What's your MOQ (minimum order quantity)?

We do not have a minimum order quantity for many of the items we currently offer. On the other hand, to achieve the most economical bilateral costs, we strongly recommend you to order more than 2CBMs per order (for mugs, it would be about 2016pcs).

If your order quantity is too low we will have to deliver them by air courier such as DHL, UPS, FedEx, TNT or etc. But most of our products belong to heavy and low value product so the cost of courier service is usually high.

# FAQS

## ■ How should I place orders at BestSub?

Please follow our order procedure:

Step 1: Choose the items you are interested in, and the quantity you'd like to buy for each item, and send your inquiry to us. Make sure that you have an accurate contact method especially a workable email address. If you need the shipping cost, please notify us your delivery address or the name of the international port close to you.

Note: We do not have a MOQ for many of the items we currently offer. On the other hand, to achieve the most economical bilateral costs, we strongly recommend you to order more than 2CBMs per order (for mugs, it would be about 2016pcs).

Step 2: We will reply your questions within 2 working days (most likely to be within 24 hours). Again, your detail description on the potential order and your business direction would be very helpful to an efficient reply.

Step 3: You can take free samples with the value less than US\$5. Any sample required beyond this value will be charged. Also you are required to pay for the sample delivery cost by DHL, UPS or Fedex. We normally provide you two pieces for one item: one blank for your own testing and another one already printed with image to show the normal effect.

Step 4: Once you confirm the order, we will provide you a pro-forma invoice with our banking details. You would need to make the payment either by T/T (Telegraph Transfer) or Western Union transfer or PayPal or Credit card (for small amount only).

Step 5: Once the payment confirmed, we will follow your order and to ship the goods to you as soon as possible. If we have stocks of the very products with us on the items you want, we will ship them straightforward.

## ■ How does BestSub deliver the goods to me?

We make delivery mainly by sea freight, it costs around 1 month from China to West Europe and North American, and about 15 days to Southeast Asia. However, if your order quantity is too small we have no choice but to deliver them by air courier. Because most of our products are categorized as heavy and low value products, so the express cost is usually high.

Samples are to be delivered by DHL, UPS, FedEx, TNT or etc.

## ■ How should I make the payment?

We only accept full advance payment for orders with value less than US\$5,000.

For order value greater than US\$5,000, we accept 50% deposit when order confirmed, and the rest to be paid before shipping.

We prefer to accept payment by T/T (Telegraph transfer) to appointed bank account in China or Hong Kong. We can also accept small payment Western Union transfer or PAYPAL and Moneybookers.com if you like. We DO accept credit card payment.

## ■ Can I have some samples from BestSub before placing orders?

Yes, we provide samples for your confirmation.

We can provide you free samples with the value less than US\$5. Any sample required beyond this value will be charged. Also you are required to pay for the sample delivery cost by DHL, UPS, EMS, TNT, or Fedex. We normally provide you two pieces for one item: one blank for your own testing and another one printed with image to show the best effect.

## ■ How can I apply for BestSub's regional agent?

BestSub attaches great importance in searching regional agents and business partners. With decade-long contribution and operation, BestSub enjoys high reputation in the global sublimation industry. We feel greatly honoured to build up partnership relations with any potential individuals, organizations and corporations at the basis of honesty, mutual trust and benefit, and great services to our clients. On the condition that you agree with the above principles, please contact us immediately for detailed negotiation. Before signing the sole regional agent contract, we would ask the candidate to demonstrate the capability of developing the market as the fulfilment of mutual trust.
